

The Power of SNChart Express

SNChart Express enables providers to instantly dictate, review, and sign off on their op reports as soon as they leave the operating room, empowering surgery centers to optimize op note dictation, image capture, and report creation.

With SNChart Express, eliminate the need for manual report tracking, editing, and approval, saving valuable time and strengthening financial performance.

INSTANT OPERATIVE REPORTS FROM THE POINT OF CARE.

Real-time op report dictation & sign off

No wait time for transcription turnaround and approval

Common surgery templates

Leverage templates for commonly performed surgeries, helping to further streamline dictation

Complete mobile solution

Providers can access their surgery schedule, automatically generate op reports, dictate, and sign off with electronic signature all from their mobile device

Immediate Benefits of SNChart Express

- Complete op reports faster
- Reduce errors
- Maximize efficiency
- Access real-time op reports with images
- Reduce burnout
- Accelerate revenue generation

SNChart[®] EXPRESS

Turbocharge your ASC workflows, accelerate revenue, and strengthen productivity with a host of features designed to enhance dictation and op report generation efficiency.

For Providers:

- Stay on top of your surgery schedule through the user-friendly portal or mobile app
- Effortlessly dictate surgeries via your smartphone and using customizable templates
- Access and upload surgery images directly from the app
- Easily coordinate with staff for additional image requirements
- Quickly review, approve, and sign off on op reports
- Incorporate addendums

For Staff:

- Navigate op report workflows with intuitive status updates
- Employ various filters (e.g., provider, location, status) to better manage op reports
- Efficiently download and print op reports in bulk
- Receive notifications upon completion of op reports
- Monitor performance metrics through comprehensive reports
